"Once you choose hope, anything's possible." - C. Reeves

Sunday Services at 9am (Including Sunday School)

Autumn's chilly nights with its pesky time change leads us into another season. One of quiet, darkness, and a sense of turning inward toward heart, hearth, and home. At the same time, it comes with new birth and new possibilities...a sense of coming renewal. This new season brings with it an abundance of lights to shine and guide our way in the dark, not to avoid or diminish the dark, but to guide our way through. There is a sense of gathering and preparing, like birds and squirrels for the cold time to come.

It is also a time of gratitude, when we come together to remember our common connections around food and sweetness, song and joy, community and peace. A time of acknowledging what we have and what we have to give and share. This year, perhaps, we might find the courage to widen our sense of what we hold in our heart, hearth, and home. So that we might be beacons of light and warmth far beyond our own doorways.

I hope that you feel welcome to join us around a great Love and warmth. I wish you comfort and warmth as we watch the light shift and lead us toward another holiday season.

Love & Blessings, Pastor Charlotte
